To Whom It May Concern,

This letter is to confirm that Lead Name is a registered Hack Club leader at the University Name.

Hack Club is a global nonprofit organization building a network of high school makers and student-led coding clubs.

We were founded in 2014 with the goal of bringing computer science education to every school with a by- the-students, for-the-students model. Hundreds of potential club leaders apply to Hack Club each year.

Lead applied to Hack Club in May 2000, and their application demonstrated excellent vision and leadership to begin a Hack Club. They have continued leading their club as part of the Hack Club network since.

Hack Club will support the sustainability and continuity of Lead's club by providing direct support to them while they lead the club, as well as helping transition the club leadership once they graduate.

For any questions, you can reach me at the contact information below.
